Jay Ruby of Ruby + Associates Named 2010 Architectural Engineering Centennial Fellow by Penn State University

Farmington Hills, MI, July 20, 2010 – Jay Ruby, PE., President and CEO of Ruby + Associates, and a nationally recognized constructability expert, has been named an Architectural Engineering Centennial Fellow by the Pennsylvania State University Architectural Engineering (AE) Department. Penn State’s AE Department is celebrating 100 years of Excellence in Education and Innovation in 2010 and is honoring Ruby, a Penn State grad, for his successful career in the Architectural Engineering Construction Industry.

“Penn State will always remain near and dear to my heart, so I’m thrilled to be named a Centennial Fellow by the AE Department,” said Ruby. “Ruby + Associates has become a pioneer and leader in the development of ‘constructability’ – a project approach based on real-world experience and improved communications to anticipate issues and achieve efficient, effective and extraordinary structural engineering results for our clients. We believe it is a better way of doing business, really the best way to do business, and I owe a debt of gratitude to my Penn State education and to my colleagues at Ruby + Associates for helping me build my knowledge base and encouraging innovation at our firm.”

Founded in 1910, the Architectural Engineering Department at Penn State University has established a tradition of excellence and educational innovation and is widely acknowledged as one of the top Architectural Engineering programs in the world. It is the oldest, continuously accredited architectural engineering program in the United States. In addition to Jay Ruby, Ruby + Associates has four other Penn State AE alum on staff.
